REGULATIONS

Governing the Employment of Piremen. Mechanics and Laborers.

PRINTING IN THE WAR DEPARTMENT.

A New Office to be Established as a Branch of the Government Printing-Liberal Union in Uruguay.

Washington, August 11 .- The Navy Department to-day issued a circular signed by Secretary Tracy governing the employment of foremen, mechanics and laborers at the

The new regulations are made in order to more effectually carry out the provisions of the Revised Statutes, which provide that labor shall be employed with reference to skill and efficiency, without regard to other considerations. They also prohibit discharge for political reasons, and make it unlawful to solicit money from laborers for political purposes, and give persons honorably discharged from the army and navy preference for appointment, provided they are capable of filling the positions. They provide that the employment of foremen, laborers and mechanics at each of the navy-yards and stations shall be committed to a board consisting of three commissioned officers on duty at the station, to be called the board of labor employment. The board shall consist of the captain of the yard or officer so acting and the senior assistant, or where there is no such assistant, the officer in charge from each of the two departments which employ the largest number of men. The board shall be responsible for the proper effective and impartial enforcement of these regulations, in accordance with the Statutes, and shall make a report annually to the Department by September 15th of each year of their work for the preceding year, with such suggestions in relation thereto a none of the such suggestions in relation thereto a none of the such suggestions in relation thereto. poses, and give persons honorably discharged ording year, with such suggestions in rela-tion thereto as may occur to them. No applicant will be registered unless he is a citizen of the United States, or has served

in the army, navy or marine corps, and has been honorably discharged therefrom, and promotions and rerating of employes shall depend only upon their proficiency, industry, regularity of attendance, interest shown in the work, quality of work and good conduct. WAR DEPARTMENT CIRCULAR.

The following circular has been issued from

the War Department:

On Monday morning, August 10, 1891, a branch office of the Government printing office will be established in the War Department and will occupy rooms in the Speiden building.
This office is established for the perform-

ance of any special work which requires the close supervision of some official or employe of the Department or where the interests of the Government would (suffer delay incident to transmission to the main office of the

Government printing office.

Requisitions for work to be done in the branch office will be forwarded to the Secretary of War, and will be made upon the forms now in use for "printing and binding," the words "branch office" to be written in the requisition under the heading "instruc-

The employes on duty in the several printing offices mentioned will be directed to report to the foreman of the branch office for duty, and when relieved by him will report to the Secretary of War for assignment.

The rooms in the State, War and Navy De-partment building vacated by reason of this order will be held by the Secretary of War for assignment hereafter.

LIBERAL UNION

The bureau of American Ropublics is informed that a liberal movement known as "The Liberal Union," has been organized in Uruguay, among the objects of which, as announced in its programme, are the following:

1. To resulain the advances of clericalism by all lawful means, and especially by the diffusion of lay schools and by the incessant propagands of the platform, the press, books and pamphlets.

propagands of the platform, the press, books and pamphlets.

2. To organize periodical liberal congresses in which may be studied and discussed the questions related to the liberal cause, both religious and political. To hold meetings to denounce all efforts made to destroy the liberty of conscience or of suffrage.

3. To watch for the strict observance of the present laws of civil marriage, etc.

4. To advocate reform of the Constitution by the separation of church and State, by administrative decentralization and by obligatory citizenship of foreigners who have resided several years in the country.

THREATENED TO SEIZE THE MAILS. The State Department has received a telegram stating that the authorities of San Salvador have threatened to seize the Pacific mail steamer City of Panama for leaving that port without properly clearing under the law.

On receipt of the dispatch Acting Secretary Wharter telegraphed the United States Min-ister there to investigate the matter and to re-port to the Department as soon as possible. CAPITAL NOTES. The Navy Department officials say that published statements that the Mobican has been ordered from Behring Sea to China is incor-

rect. The Mohican will remain in the Behring Sea until the season closes after which she will return to San Francisco. The Department considers it important to retain there the vessels now in the Behring Sea until the sealing season closes, and it is not probable any of them will be removed. Acting-Secretary Nettleton has received a letter from President Bryan, of the World's Fair, asking if Chinese visiting the World's Fair will be admitted to the United States. Chins has been invited to participate with the other nations and the question asked raises a delicate point. President Bryan has been informed that the matter will receive prompt

This is the hottest day of the season and the hottest August day in twenty years.

The effect upon the city is far more serious than most people imagine. Persons are overcome by the heat in hundreds and actual sunstroke befalls scores of people. The aggravation of other diseases by the heat is incalculable, and children, especially nursing bates and teething little ones, suffer untold miseries.

The hospitals are crowded with poor supplicants for treatment for the aliments generated by the weather and the staffs of physicians are overworked and many of the attendants are fit subjects for treatment themselves, Sunstroke has carried off, directly and indirectly, a dozen persons in the last twenty-four hours, and there are scores of others in the hospitals. The suffering caused by the heat has been intensified by a veritable plague of

Winstons Shut Out,

RALFIGH, N. C., August 11.—The greatest base-ball over seen in Raleigh was witnessed here to-day. It was the sixth and last of the series between the Winstons, of this State, and the Columbia Athletics, of Washington, N. C. Out of the series Winstons won five and the Columbia Athletics came in for their first victory to-day in a brilliant game, shotting out the Winstons by making one run. McGarr for the Winstons pitched a great game, and struck out fourteen, yielding only three hits. Leach for the Washingtons struck out three men, and yielded eight hits. Why the Winstons lost is a mystery to all ball players. The fielding on both sides was perfect.

FARMERS AND DENTISTS.

Convening of These Two State Organizations in Morehead City.

MOREHEAD CITY, N. C., August 11. - (Special.)-The Southern Dental Association assembled in annual convention here to-day. Dentists from all Southern States being represented. Several addresses were made to-day by prominent dentists on subjects of interest to the profession. The Convention will continue two days, and there will probably be three or four hundred delegates in attendance

from all points of the Southern States.

The State Farmer's Alliance also convened here to-day and several hundred delegates are here in attendance. An adress was made before the convention this morning by Colonel L. L. Polk, President of the National Farmers' Alliance.

The meeting, which is very largely attended, is being held with closed doors, and the com-mittee will probably be in session all night. Your correspondent called at General Mahone's residence to night at 11 o'clock and endeav-ored to get some report of the proceedings of the meeting, but the members of the commit-tee would divulge nothing. The object of the meeting, however, is believed to be to hear reports of the political situation in the various districts of the State.

HOW TO KEEP COOL THE CHIEF PROBLEM

A Star Chamber Meeting of the State Alliance In Baltimore-Brown Will Be Endorsed for Governor.

BALTIMORE, August 11.—The convention of the People's party of Maryland was very slow in getting to work to-day. . The delegates are for the most part farmers, and how to keep cool seemed to be the chief problem to solve in the presence of the present very hot spell of weather. The shelter of the bush and brush, the tree and haystack and the cooling winds as they come through the pines and up by brook and over meadow were much missed. Coats are very sensibly put aside and fans are the only banners waving.

This is the third convention in Maryland of the People's party or Farmers' Alliance. It is conducted with closed doors; that is reporters are not allowed to be present at the proceedings, and information of what is done will only be given out by a "committee on publication," which committee had not been appointed when a recess was taken till 3 o'clock.

CALLED TO ORDER. The convention was called to order by President Hugh Mitchell, of Port Tobacco. T. Canfield Jenkins, of Pomonkew, was secretary. The other officers are a vice-president: F. A. Benson, of Royal Oak, treasurer, Dr. Joseph Blandford and State Lecturer R. D. Bradley, of Baltimore. They were all

The call of the roll showed that the delegates were present from the regular organiza-tion of the Farmers' Alliance in Anne Arun-del, Alleghany, Dorchester, Caroline, Charles, St. Mary's, Frince George's, Eent, Talbot, Wiconico, Worcester and Somerset, and from Wicomice, Woreester and Somerset, and from the sub-alliances in Washington, Calvert, Bal-timore, Cecil and Howard counties.

President Mitchell submitted his report. Since the last annual meeting the number of alliances has been more than doubled, while the membership has increased nearly three-fold.

The convention will last for two days and the present officers will serve until the close as the officers for the ensuing year will not be elected until just prior to the final adjourn-

DEMOCRATIC CLUBS.

Meeting of the Executive Committee of the National Association.

New York, August 11.-The intense heat seems to have had no effect in preventing a full attendance of the meeting of the executive committee of the National Association of Democratic Clubs at the Hoffman House to-day. Nearly all the members of the committee

"The colored member will stand just where he has stood in the past" said he, "he will be confined to posts of his own race. The white posts have not admitted negroes to membership in the past and they will not in the future. What is more, they will probably not be called upon to pass on such applicants. The colored men understand how things are and will apply to the colored posts. That is all there is about it."

Servia's Boy Sovereign With Ex-King Milan Starts on a Tour-The War in Chili-Foreign Events.

(By Cable to The Times.) Panis, August 11, -There is scarcely a doubt that the non-arrival in this city yesterday of the Grand Duke Alexis was entirely due to his disinclination to be the recipient of the enthusiastic welcome that the citizens of Paris had prepared for him. Great crowds of people gathered at the railway stations where he was expected to arrive and much disappointment was manifested when it was learned that the Grand Duke had changed his plan and would not arrive at the

changed his plan and would not arrive at the time originally set. So sure were the Parisians that the Grand Duke would reach the city at the time appointed that a number of the houses and cafes along the route from the rallway station were beautifully decorated and illuminated in his honor.

The crowd learned that he would not arrive yesterday, but they did not learn when he would reach Paris, and, consequently, when the train in which he traveled rolled into the station at 8.45 o'clock this morning no one was present, officially or unofficially, to receive him. So adverse was the Grand Duke to undergoing an official reception that even the members of the Russian embassy had no official information as to the exact time of his arrival, and he therefore alighted from the train exactly as a private individual would have done. But as he reached the platform he was recognized by a crowd comprising at least a thousand persons who had just arrived on incoming trains or who were awaiting the on incoming trains or who were awaiting the departure of trains for the various points to

departure of trains or who were awaiting the departure of trains for the various points to which they were bound. The greeting they gave the Grand Duke was enthusiastic.

They cheered and yelled, waved hanker-chiefs and hats, and above the din could be heard cries of "Vive le Czar," "Vive la Russis." The Grand Duke, bowing and smiling at the warmness of his welcome, despite his attempt to avoid it, passed along the platform and, leaving the station, entered a carriage and was immediately driven to a hotel.

The London Times this morning publishes a dispatch from its Paris correspondent confirming the reports that the non-arrival of the Grand Duke Alexis in Paris yesterday at the time designated was intentional. The dispatch adds that the reason for the change in the Grand Duke's published programme may be that Russia may wish to show Germany butbids France.

ANOTHER ROYAL TRAVELER.

ANOTHER BOYAL TRAVELED

Vienna, August 12.—King Alexander, the boy ruler of Servia, who succeeded to the throne upon the abdication of King Milan, arrived here at a late hour last night from St. Petersburg, where he has been visiting the Care

the Czar.

A large number of officials were awaiting him in the station, while outside a crowd numbering 10,000 persons had gathered to get a view of the youthful ruler. Detachments of soldiery were drawn up around the station, and the King upon his arrival was received with full military honors.

King Alexander was attired in military uniform and bore himself like a soldier. He is a well-grown boy tall for his age. He is of slight build and his figure is erect. The manner in which he carries himself is good and denotes his military training. In his face he bears a resemblance to both Queen Natalie, his mother, and to ex-King Milan, his father.

This, it is said, is due to the fact that his tutors are frequently changed for political reasons. He has been reared without companions of his own age and altogether, though he holds the position of a ruling sovereign of Europe, he is compelled to lead a dreary, lonely life. He will go to Ischl to-day and on Wednesday will proceed to Munich, the capital of Bavaria, where he will join his father. After spending a short time in Munich ex-King Milan and King Alexander will go to Paris.

the rebel vossois has since been seen near the provinces held by President Balmaceda. The dispatches further state that the re-ports as to the relations between Chili and Bolivia, growing out of the latter's recogni-tion of the insurgents as beliggerents, one of which reports was that Chili had declared war against Bolivia, are untrue, and that the stories of cruel punishments inflicted by the Government are pure inventions. The Government simply arrests those who are supposed to be aiding and abetting the rebels and

sends them to lquique.

London, August 11 .- A Vienna dispatch says that the Poles are greatly excited over the proposed erection of a monument under the auspices of the Russian Government to the memory of Count Muravieff, known as "The Hangman of Poland." It was by order of Muravieff that a multitude of Poles were put to death at Wilna in 1863. He was likened to "Ivan, the Terrible." in ferocity, and many patriot priests and noblemen were among his victims. The proposition is to erect a memorial to him in Wilna, which witnessed his worst atrocities, and the fact that the present Governor-General of Wilna has subscribed to the fund for that purpose shows that the authorities indorse the movement. What is almost incredible is that pressure is brought to bear to compel Poles says that the Poles are greatly excited over shows that the authorities indorse the movement. What is almost incredible is that pressure is brought to bear to compel Poles to subscribe to the scheme for honoring the man who slaughtered their countrymen. The Poles generally construe the movement as a national insult although it will also sorve to keep alive in Poland the sentiment of nationality and the memories of the heroic past.

> The Car's Philanthropy. (By Cable to The Times.)

St. Peterseuro, August 11 .- The Govern St. Perrasures, August 11.—The Government is taking active measures for the relief of distress. Railways have been compelled to reduce their rates of freight in the distressed provinces, and the Mine ter of the interior has been authorized to adopt any measures of relief that he may deem expedient and to facilitate in any way possible the transport of food and

other necessities. Fire-wood from the crown lands is given to the inhabitants free of charge: 15,000,000 roubles are devoted to extensive relief works, and a similar amount to the purchase of grain for sowing.

THE CITY OF PANAMA DETAINED. A Report That the Vessel Has Sailed Direct to San Jose.

NEW YORK, August 11 .- The Superintendent of the Pacific Mail Steamship Company was advised to-day by the company's agent at La Libertad, San Salvador, that the City of Pansma, which had been detained on account of having political refugees on board, had sailed direct from that port to San Jose. The agent also stated that the gargo had been discharged at La Libertad, and that the commandant at that port had refused to dispatch the vessel.

charged at La Libertad, and that the communication at that port had refused to dispatch the vessel.

Vice-President Houston, of the Pacific Mail Steamship Company said this afternoon that he had received a dispatch stating that the company's steamer, City of Panama, had been seized and detained at La Libertad by the authorities of San Salvador because there were political refugees on board. The details are very meagre, the dispatch having evidently been "edited" with great care by the San Salvador officials. General Latonia is a passenger on the City of Panama. He is a political refugee bound from Corinto, Nicaragua, to San Jose de', Gustemala. How this concerns the San Salvadors is not stated, but they demanded his surrender at La Union. Captain White refused to comply with the order and the commandent of the port refused him clearance papers. He sailed without them, telegraphing the information to the agent at Panama, who advised him to make the port of San Jose de Guatemala direct, fearing the wrath of President Ezeta, who has an armed force at Acajutla. Captain White, no doubt had to stop at La Libertad to let off passengers. There he was told that his ship would be confiscated unless he gave up the five political refugees whose names are not given. He again refused to deliver up the men, who were under the protection of the American flag, and he was not allowed to proceed on his way. Nothing further has been heard from Captain White.

The matter has been referred to the State Department at Washington. The San Salvador consul said to-day that he had received no advices concerning the detention of the steanship. He was aware of the existing trouble between the company and the authorities, but did not know that it was of such a serious nature as would cause the detention of a vessel. He expects to receive word from there soon.

A NEWPAPER'S RIGHTS.

An Important Decision Rendered by the Montana Supreme Court. CHICAGO, August 11 .- A dispatch from Helena, Mont., says the Supreme Court of Montana has vindicated the right of a newspaper

tana has vindicated the right of a newspaper to publish the news. Judge McHatton, of Butte, recently ordered Editor J. A. Macknight, of the Helena Journal, to appear before him for publishing in a gossipy article the words of an old Montanian, to the effect that the Davis will contestants could not get an impartial trial before any judge or jury in Butte, where the vast estate lies, and from which it would be removed if the contest is successful. The court held that contempt of court is confined almost exclusively to acts that interrupt the progress of the business of

PACE OF THE EARTH CHANGED.

Some Wonderful Transfigurations Caused by

the Western Earthquake. Yuma, Asiz., August 11.—Daily arrivals from the region of Sonors, on the Colorado river, report a most wonderful change in the river, report a most wonderful change in the topography and appearance of the country. Many old landmarks are oblitaterated, prominent natural objects are wiped off the face of the earth and new ones created in unexpected places. The damage done is principally to stockmen who have lost many head of cattle. The Cocopah Indians are heavy losers. The small stream four miles north of Lerdo, which, prior to the earthquake, was readily forded, has become impassable owing to its depth. It is now necessary to cross the water courses six miles back from the Colorado. The Cocopah Indians now predict another earthquake liable to occur soon. They say natural signs indito occur soon. They say natural signs indi-

Come to a Close To-day. BRISTOL, TENN., August 11 .- [Special.]-The Baker-Gilmer trial will come to a close tomorrow afternoon. The life of Dr. John A. P. Baker will be put in the hands of twelve of his countrymen. Hons. D. F. Bailey and John Burson, of Bristol, occupied the day in speeches, and Dan Trigg, of Abingdon, spoke to-night. Only two more speeches are to be made to-morrow.

The jury will in all probability not decide the matter before Thursday morning.

The Union Pacific Pluances. New York, August 11.—The effort to form a syndicate for the purpose of assisting the Union Pacific financially ecoms to have been abandoned, and the general opinion on Wall street to day seemed to be that a receiver will be appointed. The stock was sold in large blocks to-day, and the closing prices were 32%, the lowest price touched for many years. Efforts to interview George Gould and Russell Sage to-day on the syndicate subject were unsuccessful.
